

Odyssey Pursuit Enterprises is an Executive Search Firm for the IT and Advanced Technology Markets. Our mission is to build our premier client's teams and advance our candidates' careers.

THE ODYSSEY PURSUIT DIFFERENCE

Odyssey provides a custom-fit recruiting experience for clients and candidates by listening and responding to their individual needs.

You speak, we listen - and produce results.

Odyssey Pursuit is small enough to give personal attention to each of our clients, while being large enough to have a robust network of candidates who are focused on cutting edge technology.

Our goal is to know top technical talent, personally.

You speak. We listen.

Network Engineering

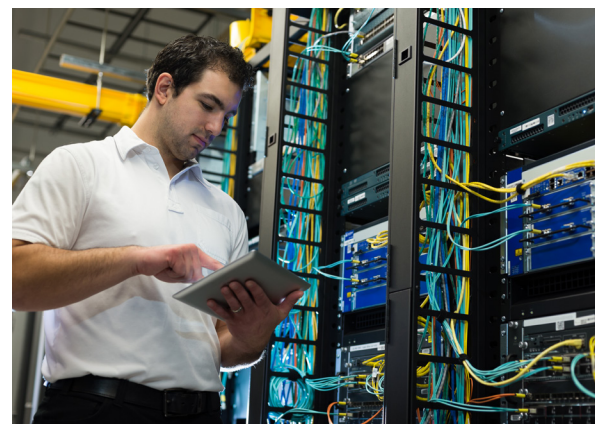

Odyssey Pursuit Enterprises (OPE) specializes in providing Network Engineering candidates. Our deep understanding of network architecture results in our ability to successfully source, qualify and deliver top industry talent to our clients.

OPE constantly maintains knowledge of the Network Engineering marketplace. We identify leading technical candidates in the field and get to know them, personally. We keep a close eye on market rates, so our clients are prepared to make the best offer.

Talent acquisition

OPE consistently delivers resources in the following network skill areas:

- Network Architecture
- Network Design and Engineering
- Network Deployment and Integration
- Network Operations
- Service Provider Core Networking
- Enterprise Networking

As your organization's technology needs grow more complex, so will the intricacy of your underlying network architecture. Meeting these technological demands requires strong network engineering resources skilled at designing, deploying and integrating solutions into existing, elaborate environments.

Skilled OPE consultants interview candidates for both technical and soft skills prior to submission to our clients. We ensure that our clients do not waste time on bad candidates who have well written resumes.

Network Specialites

- Routing & Switching
- Wireless
- Security
- Data Center
- Unified Communications/Collaboration

"Tim hired for my business as if it were his own. The result was incredible. I interviewed two candidates and wished I could have hired both. The cost was the same or less than other recruiters I have used, in half the time."

- Managing Director
Global IT & CAM Software Provider
