

# Audio/Visual Engineering

Odyssey Pursuit Enterprises (OPE) has a large network of Audio/Visual engineering technicians and programming experts. Through our own technical expertise in this market, we have gained an advantage in successfully sourcing, qualifying and delivering top industry talent to our clients.

Whether sourcing lead technicians or high level programmers, OPE identifies leading technical candidates in the field and gets to know them, personally. This ensures we find the right fit, professionally and culturally, for your team.

## Talent acquisition

OPE consistently delivers resources in the following Audio/Visual skill areas:

- System Design
- Integration & Installation
- Maintenance/Troubleshooting
- Programming
- Commissioning

We live in a collaborative world. To remain competitive, companies need to keep their A/V technology up to date and moving forward. They also can gain strategic advantage by improving their communications, both internally and externally.

Talented A/V engineers ensure that new technology integrates well with the rest of the business, using customized solutions. Our clients are some of the industry's top integrators and managed service providers. They demand the best talent in order to provide their customers with the industry's top solutions.

Skilled OPE consultants interview candidates for both technical and soft skills prior to submission to our clients. We ensure that our clients do not waste time on bad candidates who have well written resumes.

### Certified A/V Professionals

- AMX
- Biamp
- Cisco
- ClearOne
- Crestron
- Extron
- Infocomm
- QSC

*"Odyssey Pursuit Enterprises continue to impress with their ongoing support of our sustained growth. Tim and Walt have provided a turn-key solution time and time again, staffing our openings with qualified and eager Audio Visual professionals."*

IT Solutions Provider

## THE ODYSSEY PURSUIT DIFFERENCE

Odyssey Pursuit Enterprises provides a custom-fit recruiting experience for clients and candidates by listening and responding to their individual needs.

You speak, we listen - and produce results.

Odyssey Pursuit is small enough to give personal attention to each of our clients, while being large enough to have a robust network of candidates who are focused on cutting edge technology.

Our goal is to know top technical talent, personally.

**You speak. We listen.**
